“ITALIAN AS A WAY OF LIFE”

The Azimut Yachts way is knowing how to view the world from ever changing points of view; to seduce through ingenuity and beautiful lines; the ultimate expression of Italian Made excellence.

ADDING MEANING TO MEGAYACHTS

Designed by the skilled hand of Stefano Righini, this unique concept wide body 27 Metri megayacht creates perfect harmony between flowing lines and unparalleled volumes for the segment. The use of carbon fiber made it possible to offer a unique layout with up to 5 cabins and the owner's suite on maindeck. The vertical bow and the big full-height windows, which rise from the hull and extend up into the superstructure, give the boat a sporty, edgy character and are its signature features.

UNIQUE,
JUST LIKE YOUR
VIEW OF THE SEA.

The furnishings are unique items, designed and made to measure by expert craftsmen. Sinuous lines and forms enhance contrasting colours and textures, with a skilful contamination of woods to give the spaces in the Grande 27 Metri a uniquely contemporary feel. Salvagni's signature style involves harmoniously flowing lines, with some critics drawing comparisons to Italian Renaissance art, in an absolutely contemporary interpretation: "the new Italian Renaissance".

CARBON TECH

The extensive use of carbon fiber, which Azimut has pioneered in all its collections, makes it possible to extend the space available without increasing the yacht's weight, resulting in better performance in the water and unprecedented comfort onboard. Roll momentum can be decreased from 3% to 15%. On Grande 27 Metri the hard top, roll-bar, flydeck, deckhouse and transom are pure carbon fiber, while the deck is hybrid carbon/glass fiber.

TECHNICAL FEATURES

Azimut Grande 27 Metri has a planing hard chine “deep V” hull that has been tank tested at the Brodarsky Institute in Zagabria. The boat has been designed according to the highest criteria, including CFD analysis with proprietary software, FEM analysis, modal analysis derived from the aerospace industry.

The boat has CE Category A and NMMA type approval and has been issued with Azimut’s HTS High Technical Standard Declaration to testify the high design standards that put it at the top of its category.

Inimitable, in terms of shape and line.

MAIN TECHNICAL DATA

Length overall (incl. pulpit)	26.78 m (87' 10")
Water line length at full load	22.62 m (74' 3")
Beam max	6.59 m (21' 7")
Draft (incl. props at full load)	1.93 m (6' 4")
Displacement (at full load)	92.96 t

PERFORMANCE

Engines	2 x 1900 mHP (1397kW) MAN V12
Maximum speed (performance test mass)	up to 28 kn
Cruising speed (performance test mass)	24 kn

ACCOMODATION

Cabins	4/5 + 2 crew
Berths	8/10 + 3 crew
Head compartments	5 + 2 crew

TANK CAPACITY

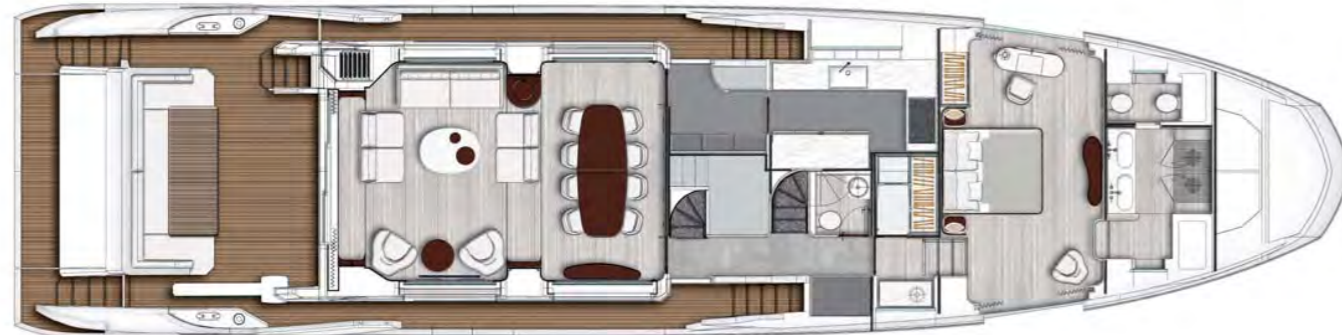

Fuel capacity	9500 l (2509 U.S. Gal)
Fresh water	2000 l (528 U.S. Gal)
Sewage and grey water	850 l (224.5 U.S. Gal)

PROJECT

Building material	GRP and Carbon Fiber
Exterior styling & concept	Stefano Righini
Interior designer	Achille Salvagni Architetti

Wheelhouse

The boat contains latest generation technical solutions identified by Azimut's Innovation Lab in the framework of the ECS - Enhanced Cruising Solutions programme to offer the best possible yacht management: from Electronic Power Steering, with sensitivity control functions that can be customised by the captain, to Active Trim Control, which ensures the best possible trim at all times during navigation to reduce friction and optimise consumption. The integrated control and monitoring system by Naviop is a particularly reliable installation with superior processing power.

Regulations UNI ISO 8666

The levels of performance described apply to a standard craft (with standard equipment installed) with clean hull, propeller and rudders. Moreover, it is specified that such levels of performance were achieved under favourable sea and wind conditions (1 on the Beaufort scale and 1 on the Douglas scale); in the case of diverse or less favourable sea conditions performance levels may vary considerably.

EC Approved

Owing to constant technological developments, Azimut-Benetti S.p.A. reserves the right to modify the technical specifications of its boats at any time and without prior notice.

A pioneering privately owned company

When you choose an Azimut Grande, you become a player in an all-Italian story, the story of a shipyard with a prestigious past, a rock solid company with an image of success which gives luxury yachts an added value that lasts over time. It is a large family business that builds boats and blends fanatical attention to detail and superb Italian creativity with constant technological development. With a vast distribution network spread over the five continents, Azimut Yachts is the symbol of the very best of "Made in Italy" throughout the world. The true leader in the manufacture of luxury yachts where unparalleled style merges seamlessly with innovation.

This brochure in no way constitutes a contract of sale for the boatyard's vessels to any person or company. All information contained herein, including but not limited to technical and performance data, illustrations, and drawings, is non-binding and for purposes of illustration only. The information in this brochure refers to the boatyard's standard motoryacht models available as of the date of publication. Technical and descriptive information is valid only to the extent that it pertains to the specific vessel that is the subject of a purchase. Contract terms are valid only to the extent that they are contained in a contract of sale. This document is based on information available at the time of publication. Despite efforts to ensure the greatest possible accuracy, the information contained herein may fail to cover all details, omit technical or commercial changes that may have been made subsequent to publication, describe features that are not present, and fail to envisage all circumstances that might occur. Any illustrations, photographs, diagrams and examples shown in this brochure are included solely for the purposes of illustrating the text. Due to the different features of each vessel, the boatyard assumes no liability for actual use based on the illustrated applications.
